- ☐ I have shared the rules and required forms with contributors and guardians. Each group may submit one group entry. A group member may also submit one separate individual entry.
- ☐ The roster identifies every creator and their contribution. I have attached the required originality certification and contest permissions for each contributor, and parent or legal guardian consent for every minor.
- ☐ To the best of my knowledge, the entry is original and complies with the rules. Generative AI was not used for the concept, name, artwork, or text, including traced or modified AI material.
- ☐ I have obtained required school or organization approvals and any authorization needed to disclose student information. I will follow each person's publicity choices and ask SSU to clarify missing or conflicting choices before publicity use.

Authority and ownership

The coordinator handles submission, communications, and finalist presentation arrangements. This role does not authorize signatures or rights grants for others or replace guardian consent. Other rights owners must provide signed authorization and be identified on page 2. This addendum does not transfer copyright, set ownership shares, waive legal claims, or authorize ongoing branding or merchandise.
